

ENVo2 — Word Roots & One Word Substitution

Chapter ENVo2 · CDS Grammar Level

CDS Level

✦ **Why This Chapter Matters:** CDS devotes 4–6 questions per paper to vocabulary — synonyms, antonyms, one word substitution, and word meaning in context. Knowing word roots lets you decode unfamiliar words from first principles, so you can answer questions even when you haven't seen the word before. **One Word Substitutions** are tested directly — and 80% of the tested words come from a predictable set that repeats across years. Both sections here are built from confirmed CDS PYQs 2020–2025.

PART A — WORD ROOTS

How roots work: Every English word has a root (the core meaning-unit), which may be preceded by a **prefix** (changes or adds to meaning) and followed by a **suffix** (changes the part of speech). Knowing a root unlocks a whole family of words.

Example: **chron** (Greek: time) → *chronic, chronology, synchronise, anachronism, chronicle*

If CDS asks the synonym of “anachronism” and you know *chron* = time, you know it relates to something out of its time period.

💡 **CDS Root Strategy:** You don't need to know the full etymology. You need to recognise the root in an unfamiliar word and eliminate wrong options. Roots in **Greek** dominate science and abstract vocabulary. Roots in **Latin** dominate everyday English and action vocabulary. **Prefixes** modify meaning direction (positive/negative/time/place). **Suffixes** change the word's part of speech.

CDS PYQ

Part A — Word Roots in CDS Questions

Q1. (CDS 2025-I) Choose the word closest in meaning to "ANACHRONISM":

- (a) An old tradition
- (b) Something out of its proper time
- (c) A medical condition
- (d) A form of government

Answer: (b) Root analysis: **ana** (against / back) + **chron** (time) + **ism** (state/condition) = a condition of being against or out of proper time. An

anachronism is something that belongs to a different time period — a historical error of placement in time.

Q2. (CDS 2024-II) The word "POSTHUMOUS" means:

- (a) Awarded during one's lifetime
- (b) After death
- (c) A form of punishment
- (d) An official announcement

Answer: (b) Root: **post** (after) + **hum** (from humus = earth/ground, where bodies are buried) + **ous** (adjective suffix). Posthumous = occurring after death. A posthumous award is given after the recipient has died.

Q3. (CDS 2024-I) Which word means "ruling by a few people"?

- (a) Democracy
- (b) Autocracy
- (c) Oligarchy
- (d) Plutocracy

Answer: (c) Oligarchy

Root: **olig** (Greek: few) + **archy** (rule). Oligarchy = rule by a few. Compare: democracy (demos = people), autocracy (auto = self/one person), plutocracy (pluto = wealth — rule by the wealthy).

Q4. (CDS 2023-II) "CIRCUMSPECT" most nearly means:

- (a) Direct and confident
- (b) Wary and careful in all directions
- (c) Surrounded by obstacles
- (d) Short-sighted

Answer: (b) Root: **circum** (around) + **spect** (look/see). Circumspect = looking around in all directions before acting; hence, cautious and careful. Compare: inspect (look into), retrospect (look back), prospect (look forward).

Q5. (CDS 2025-II) "CREDULOUS" describes a person who:

- (a) Is highly critical
- (b) Believes things too easily
- (c) Refuses to trust anyone
- (d) Has great confidence

Answer: (b) Root: **cred** (believe) + **ulous** (tending to). *Credulous* = tending to believe too easily; gullible. Contrast: *incredulous* (in + cred = not believing; deeply sceptical). *Credible* = worthy of belief.

TRICKY Q

Root-Based Word Confusion — CDS Synonym/Antonym Pattern

Q. Distinguish using roots: *empathy, sympathy, antipathy, apathy*

All share root **path** = feeling. The prefix reveals the relationship:

empathy = em (into) + path → feeling INTO another person's emotions; understanding from inside

sympathy = sym (together/with) + path → feeling WITH someone; sharing their sorrow

antipathy = anti (against) + path → feeling AGAINST; strong dislike

apathy = a (without) + path → WITHOUT feeling; complete indifference

CDS pattern: "The soldiers showed utter ___ towards the enemy's suffering" → *antipathy* (against-feeling = dislike). "Despite the hardship, the officer showed ___ for his troops" → *empathy*.

Q. Distinguish using roots: *benevolent, malevolent, magnanimous, pusillanimous*

benevolent = bene (good) + vol (wish/will) → wishing good for others; kind and generous

malevolent = mal (bad) + vol (wish/will) → wishing harm to others; evil-minded

magnanimous = magn (great/large) + anim (spirit/soul) → great-spirited; generous in forgiving

pusillanimous = pusill (very small) + anim (spirit) → small-spirited; cowardly, timid

CDS pattern: Antonym of "magnanimous" → *pusillanimous* (small-spirited = petty/cowardly).

✦ **How to use this section:** Each entry shows the **one word**, its definition, and where relevant, the **root breakdown** so you can remember it through meaning, not just memory. Words are grouped by theme — the same way CDS questions cluster them. PYQs are woven in throughout.

Q8. (CDS 2025-II) "Government by a group of wealthy people" is called:

- (a) Theocracy
- (b) Oligarchy
- (c) Plutocracy
- (d) Bureaucracy

Answer: (c) Plutocracy

ploutos (wealth) + cracy (rule) = rule by the wealthy. (b) Oligarchy = rule by a few (oligos = few) — not specifically the wealthy. (a) Theocracy = rule by religious authority. eu (good) + logos (word) = a speech of good words about someone. (a) Obituary = written death notice with brief biography. (b) Elegy = a mournful poem lamenting death. (d) Epitaph = inscription on a tombstone. The key distinction: *eulogy* = speech

TRICKY Q

Confusable OWS Pairs — CDS Distinction Questions

Q. Distinguish: *eulogy* / *elegy* / *panegyric* / *epitaph* / *obituary* — all relate to death or praise. Fill in the correct word: “The general delivered a moving ___ at the fallen soldier’s funeral ceremony.”

Answer: eulogy — a spoken tribute delivered at or after a funeral.

elegy = a written/sung lament; a poem mourning death (not a speech)

panegyric = extravagant public praise in speech or writing (not necessarily at a funeral)

epitaph = carved or written words on a gravestone (not a speech)

obituary = printed death notice in a newspaper (not spoken)

CDS trick: All four seem similar but the context (spoken at funeral vs written vs on stone) separates them.

Q. Distinguish: *omnipotent* / *omniscient* / *omnipresent* / *infallible* — fill in the correct one: “The ___ deity was believed to know all things.”

Answer: omniscient

omnipotent = all-powerful (potent = power)

omniscient = all-knowing (scient = knowing) ← correct here

omnipresent = present everywhere (present = being there)

infallible = never making mistakes (fallere = err) — different: about being error-free, not about knowledge

All four are commonly confused in CDS because they all sound like divine attributes.

The root suffix is the key.
